SUPPORT MODELS:

RadixBay is able to provide partial, part-time support to supplement your internal staff or assume total ownership of your DB environment.

RadixBay Managed Database Services

RadixBay's managed database services help you to control costs, reduce operational risk and optimize your data infrastructure. Our easily customizable, budget-friendly solutions allow you to tailor a support package that meets your unique needs. From supplementing your internal teams to assuming total ownership of your environments, RadixBay allows you to choose the services you need, when you need them.

Your assigned DBAs will work with your team to fully understand your change management procedures, security controls, pain points and technology challenges and goals. Your RadixBay team comes fully equipped with work request and monitoring solutions that ensure your requests are promptly handled and your systems are highly available and high performance.

Whether your database is in the cloud or on premise, you can rest easy knowing RadixBay's DBA experts are providing 24x7 enterprise-grade support for your critical environments.

MANAGED SERVICE ADVANTAGES:

- Reduce Database Support Costs
- Improve Database Quality
- Reduce Operational Risk
- Increase Agility
- Focus on Innovation, not DB Support
