RadixBay Testing Center Of Excellence Testing Assessment Services

RadixBay Testing Center of Excellence (TCOE)

RadixBay's Testing Center of Excellence is a unique solution that helps organizations reduce overall application testing costs and improve the quality and efficiency of their testing initiatives.

Based in our rural shore delivery center in Tabor City, North Carolina, RadixBay's team of testing specialists combine project-proven best practices with the latest technologies, tools and automations to streamline and improve the quality of application testing projects.

From building your test environment that includes a repeatable, automated testing framework to assuming total ownership of your testing projects, RadixBay provides an easily customizable solution that meets your needs and your budgets.

Transform Your Testing Capabilities With a TCOE Testing Assessment

RadixBay's testing assessment helps organizations to reduce their overall testing costs and improve their testing capabilities. From high-level strategies and staffing to tools, techniques and test cases, TCOE subject matter experts use our proprietary Testing Maturity Model to thoroughly evaluate every component of your testing environment.

The analysis typically takes several days and concludes with a formal review of the TCOE recommendation document. TCOE assessment activities include:

- Analyze and evaluate current testing environment
- Evaluate team collaboration, common code, data sharing and development dependencies
- Document current testing model and workflows
- Use RadixBay's Testing Maturity Model to Identify gaps and improvement areas
- Design improved Target Operating Model
- Create improvement project plan with detailed action items and recommendations

Benefits of RadixBay's Testing Assessment Services:

- Reduce Overall Testing Costs
- Improve Development Process Quality
- Lower Implementation Risk
- Accelerate Innovation
- Reduce Development Times
- Increase Staff Efficiency
- Implement Industry Best Practices

- Deploy Advanced Testing Tools, Scripts and Automations
- Leverage Advice from a Team of Application Testing Experts
- Better Identify, Trend, Document and Correct Software Defects
- Improve Collaboration to Reduce Code Conflicts and Data Sharing Issues

Rural Shore Service Delivery Model:

RadixBay utilizes their rural-based delivery center to provide 100% onshore development, testing and support services. Rural shore combines the cost benefits of offshore services with the security and simplicity of onshore support to deliver cost effective, high-quality solutions.
