

Take the Next Step in Your Career with RadixBay

Are you ready to work with a company that partners with you on your career goals?

It's pretty simple, when you're successful - we're successful. We also know you need to maintain a healthy work/life balance.

We are looking for people that are passionate about IT and interested in learning about new technologies. RadixBay is a rapidly growing, mature, stable services provider with a business office in Charlotte, NC. Our service delivery center is in Tabor City, NC, which is just a short drive from the Carolina coastline.

FULL STACK DEVELOPER

This position provides full stack development services to RadixBay clients. Also, manages, mentors and coaches RadixBay's junior developers. Works with sales to provide development estimates and define needed team composition for projects. Work can be performed remotely, but ideally would be located near Tabor City, NC. The position is full-time with an annual salary range from \$90,000 – \$120,000.

Job Responsibilities

- Performs or reviews systems analysis, design, programming, developing, testing, debugging, and documentation for assigned software projects
- Provides technical leadership to team and department members. Leads through example, mentors and influences others
- Participates in software design meetings
- Provides time estimates for development tasks for project planning
- Participates in daily stand-up meetings with the development team for status updates
- Troubleshoots and provides technical solutions to customer production issues
- Works with support and documentation groups to provide technical and user training and manuals for new systems and major system enhancements
- Peer reviews development team code for feedback and quality control
- Collaborates frequently with client managers, business analysts, and company leadership to serve clients

Job Requirements

- Bachelor's degree in Computer Science or related field is preferred or equivalent combination of education and experience
- US Citizen or Green Card Holder
- 6+ years of software development experience, including experience in a management or team lead role
- Experience with the most current technologies and products used in the industry is preferred
- Proactive problem solving, analytical skills, attention to detail, and follow-up skills
- Strong development and implementation skills
- Customer/Client Focus
- Strategic thinking and planning
- Ability to organize and manage multiple priorities
- Is able to effectively mentor others on standard processes and best practices
- Excellent interpersonal and communication skills
- Agile Development Methodology experience
- Experience working in a Team Environment
- .Net Framework, ASP.net, C# language (required)
- MS SQL Server, stored procedures, and functions (required)
- HTML, CSS, and JavaScript (required)
- Experience with React / Angular is a plus
